

Baltimore Regional Housing Partnership Shares Support for Proposed Spending Plan for the Affordable Housing Trust Fund

January 9, 2020

The [Baltimore Regional Housing Partnership \(BRHP\)](#) is dedicated to providing housing assistance and counseling to some of Baltimore's lowest-income families. While we serve more than 4,000 families in and from Baltimore City, we know that tens of thousands more lack access to safe, affordable, and equitable housing. BRHP strongly supports the [proposed spending plan for the Affordable Housing Trust Fund](#) to begin to address this need locally.

BRHP's key areas of support include:

- Increasing the supply of affordable housing, preserving existing affordable units, and increasing the geographic dispersion of affordable units to include neighborhoods that have traditionally excluded those units
- \$2 to 3 million in annual funds for new construction of rental units towards increasing the supply of affordable units
- \$1 million in funds earmarked for flexible funding and innovations in services to renter households
