FAQs for Current Applicants

1. I applied to the wait list during the May 2026 opening. How do I know if I'm on the wait list?

BRHP sent emails to all applicants in June and July 2026 to notify them about whether they had been selected for the wait list. Applicants should check the email they used to register for the Applicant Portal and refer to this email for more information.

2. I received a letter that I was added to the wait list. What happens now?

Please refer to the letter that was sent to successful applicants. Applicants will be notified by email if they are selected off the wait list and that email will include information about next steps. In the meantime, applicants should keep their application information up to date (see Question #3).

3. If I was added to the wait list, can I update my application?

Yes. Applicants should access their application using the [Applicant Portal](#) to update any changes to their contact information and household composition. Applicants should also update any of the HABC-related questions in the applications. Any notifications from BRHP about their application status, including being selected from the wait list, will be sent to applicants via email.

4. How do I log in to the Applicant Portal?

Applicants can log in to the Applicant Portal by selecting the "Continue with Email" option and entering the email address that you used to register for an Applicant Portal account. For additional instructions, please see the *Guide to Updating Applicant Portal Information*.

5. Where can I get assistance using the Applicant Portal?

Please refer to the *Guide to Updating Applicant Portal Information*. If you still require additional assistance, email applicants@brhp.org or call 667-207-2100.
